PUBLISH YOUR THOUGHTS IN THE SOUVENIR
Interested Engineers are requested to submit paper for the Souvenir of 61st IEB Convention to Honorary Secretary, IEB, Dhaka Centre by 15 April 2024.

Engineering and Technology for Smart Bangladesh

Under the leadership of Honorable Prime Minister Sheikh Hasina, Bangladesh is set to lay the firm history in bringing modern information, digital technology, and platforms to every doorstep in Bangladesh. Building on the success of the government's Vision 2021, a "Digital Bangladesh," and going towards the developed world, the manifesto to build a "Smart Bangladesh" by 2041 is well-timed and intriguing. Hon'ble Prime Minister Sheikh Hasina's commitment to building a Smart Bangladesh has been widely recognized domestically and internationally. The country has been praised for its progress in digital transformation and has become a model for other developing countries seeking to leverage technology for development.

Owing to steps taken by the government, Bangladesh has experienced growing economy, rapid urbanization, and industrialization. Growing industrialization and economic activities have maintained Bangladesh's stable GDP growth. Vision 2021, announced by Hon'ble Prime Minister Sheikh Hasina to make Bangladesh a middle-income country by 2021, has been achieved vividly. A few remarkable mega projects culminating in our basement mega infrastructure, electricity availability and ancillary infrastructure, have ensured sustainability. Through this path, future Bangladesh will be Smart Bangladesh based on the four basic pillars of Smart Citizens, Smart Government, Smart Society, and Smart Economy. Every citizen of the country will be efficient in using technology, all transactions and the economy will be technology-dependent, all government facilities and activities will be accessible everywhere, and our entire society will be technology-friendly.

The citizens of the country are further excited with new hopes and aspirations due to various preparatory activities and multifaceted practical activities of the government. Earlier, in the keynote address delivered at the World Congress on Information Technology Ministerial Conference on November 11, 2021, Mr. Sajib Wazed Joy, Adviser to the Prime Minister on ICT affairs, urged everyone to work together to lead the way for the fourth industrial revolution. However, becoming "smart" principally means concentrating more on data-centric design and human experience rather than automation and digitization. ICT will certainly play a pivotal role in achieving the Smart Bangladesh Vision.

Government projects aim to scale up the current infrastructure and introduce new technologies in all engineering and business management areas. At the 61st Convention, the seminars and activities will allow us to understand the need for today's emerging world and motivate engineers to take the challenges with technologically well-equipped initiatives to materialize the dream of Honorable Prime Minister Sheikh Hasina's Smart Bangladesh.

61st Annual Convention ৬১ তম কনভেনশন

Engineering and Technology for Smart Bangladesh

Registration Form

The Institution of Engineers, Bangladesh
Host Centre: Dhaka

61ST CONVENTION

Dear Engineers,
We are pleased to inform you that the 61st Convention of The Institution of Engineers, Bangladesh (IEB) hosted by Dhaka Centre will be held in Dhaka from **09 to 14 May 2024**. The Chairman and Council of Dhaka Center sincerely welcome you to attend the convention and participate in formulating new emerging engineering principles for transforming the country into a Smart Bangladesh.

The able daughter of the Father of the Nation Bangabandhu Sheikh Mujibur Rahman, the **Honourable Prime Minister** of the Government of the People's Republic of Bangladesh, Sheikh Hasina will **Inaugurate** the ceremony on **11 May 2024** and the **Honourable Opposition Leader of the Parliament** will grace the **Closing Ceremony** on **13 May 2024** as the **Chief Guests**.

Hon'ble Prime Minister has given us a Vision for Smart Bangladesh to build a digitally enabled, smarter, and more sustainable country. It aims to leverage the power of technology to improve the quality of life for all citizens, create new economic opportunities, and drive sustainable development. In this context, "smart" refers to Smart Citizens, Smart Government, Smart Society, and Smart Economy to improve various aspects of society, such as healthcare, education, transportation, and governance. The government wants to build a technology-dominated Smart Bangladesh.

The "Smart Bangladesh Vision 2041" sets out an ambitious plan of the government to transform the country into a prosperous, and developed nation with a thriving economy and world-class infrastructure development. To achieve this vision, the government plans to invest heavily in education, and technology-based all-inclusive development. Therefore, the theme of the 61st IEB Convention is set to "Engineering and Technology for Smart Bangladesh" and the theme of the National Seminar is set to "The Engineers for Transforming Technology driven Smart Bangladesh".

The convention creates a unique opportunity for IEB members to share and exchange worldwide views and ideas on technological development which leads towards **SMART Bangladesh**. Family participation is a chance to build expanded socialization and engage in entertainment. Besides, the institution's 65th Annual General Meeting, Convention activities include National Seminar, Technical sessions, Commemorative Lectures, IEB Awards, and Convention Night. Many dignitaries and representatives from home and abroad are expected to attend the convention.

We hope that your active participation will make the convention a success. The registration form is included here for your registration in the convention.

The registration deadline is on **30 April 2024**.

Cordially yours,

Engr. Md. Nazrul Islam, F-5777
Honorary Secretary
IEB, Dhaka Centre &
Member-Secretary
Convention Preparatory Committee
61st Convention, IEB

CONVENTION PROGRAM

Venue: IEB, Ramna, Dhaka

Date	Time	Programme
09 May 2024 Thursday	10:00 - 19:00	Registration Materials Distribution (Registered Members only)
